Dear Alibaba members,

I am writing to apply for the position at the Alibaba AliExpress Senior / Javascript Frontend or Full-stack Engineer Barcelona position. The role is very appealing to me, and I believe that my education and my professional experience make me a highly competitive candidate for this position.

Since I have finished my master's degree in Remote Sensing and GIS I have been working on several programming projects. At the end of my resume there are the links of my projects, all of them are available on my Github account and the link to my blog.

I thank you for your time and I am looking forward to speaking with you soon about this employment opportunity.

Sincerely,
Josep Andreu Sabaté
